NOTE RE:

ADMINISTRATIVE ORDER 97-8

RHODE ISLAND FAMILY COURT
CHILD SUPPORT FORMULA AND GUIDELINES

In accordance with federal requirements, the Rhode Island Family Court has conducted a review of the 1992 Child Support Guidelines for the payment of child support. In 1996, a Task Force on Revision of Child Support Guidelines reviewed updated data on the cost of raising children as well as analyzed case information on the application of and deviation from the 1992 guidelines. The revised tables and data were provided by Policy Studies, Inc. of Denver, Colorado, the company which had previously supplied the 1992 economic data.

The Task Force completed its work in September 1997. The Task Force submitted a final report along with a Proposed 1997 Monthly Basic Child Support Obligations schedule, a proposed 1997 Gross to Net Income Conversion Table and the proposed revised Family Court Child Support Guideline Worksheet. The Task Force also furnished suggested approaches to such issues as split custody situations, extended visitation and joint/shared custody.

Consequently, the Rhode Island Child Support Guideline Schedule of Basic Child Support Obligations, promulgated in Administrative Order 92-4, has been amended. The amended Monthly Basic Child Support Obligations Schedule is attached hereto and becomes effective on December 1, 1997.

The revised schedule incorporates economic changes which have occurred since 1992 in federal tax rates, federal poverty guidelines, inflation and price levels. The federal self-support reserve has been increased to correspond with increases in the poverty level since the last revision in 1992. The inclusion of a self-support reserve insures that obligors have sufficient income to maintain a minimum standard of living. The 1997 federal poverty guideline (self-support reserve) for one person is \$658 net (\$725 gross). However, absent a deviation, the recommended minimum support order set forth in the schedule is \$50 per month to establish an obligor's duty to support his or her children.

Another key economic assumption contained within the revised schedule is that the custodial parent is entitled to claim the federal tax exemption for children due child support. This is the most realistic presumption for inclusion within the schedule given federal tax provisions. Therefore, if the non-custodial parent has been assigned the tax exemption, the basic child support obligation should be adjusted above the minimum set forth in the schedule to account for the added tax benefit to the non custodial parent.

It should also be noted that the schedule is intended to serve as a floor or base, and not as a ceiling or cap in setting child support obligations. Accordingly, in appropriate circumstances, the Court should order basic child support obligations in amounts higher than those provided in the schedule, or in its discretion, order supplemental payments (for education or other expenses related to the child).

The Income Shares Model adopted by the Family Court in Administrative Order 87-2 remains the methodology upon which the amended schedule is grounded. The Income Shares Model provides an objective and equitable basis for determining appropriate child support orders. The amended schedule thus continues to calculate child support as a share of each parent's income presumed to be spent on the child as if the parents and child(ren) had been living in an intact household.

The new schedule shall apply to all child support orders established or modified by the Family Court on and after December 1, 1997, including temporary and final orders, and orders entered into by agreement of the parties.

Use of the 1997 revised schedule and worksheet

The instructions for the use of the Guidelines Worksheet set forth in Administrative Order 87-2 should continue to be followed. Because Administrative Order 87-2 did not specifically address such situations as additional minor dependents, combined monthly income in excess of \$15,000, split custody, extended visitation and joint/shared custody, the following procedures should be adhered to unless the court in its discretion finds such application would be inequitable to the child(ren) or parents in accordance with Rhode Island General Laws Section 15-5-16-2.

1. Additional Minor Dependents

The Child Support Guidelines Worksheet has been revised to include a further required deduction for the additional minor dependents of an obligor or obligee (see new line 2 (c) on Family Court form DR-30).

For additional minor dependents of an obligor or obligee, a deduction not to exceed 50% of the child support obligation for the additional child(ren) should be calculated by taking into account the combined gross income of both parents of the additional child(ren). Where the subsequent spouse of the obligor or obligee is unable to contribute to the combined gross income of the additional family by reason of death, incapacity or incarceration, the court may, in its discretion, deduct up to 100% of the child support obligation for the child(ren) of the subsequent relationship from the gross income of the obligor or obligee. A second Guideline Worksheet for the subsequent family need not be filed with the court so long as the court is satisfied that the deduction for the additional minor dependent(s) is accurate.

2. Combined Monthly Income in Excess of \$15,000

For combined annual incomes in excess of \$180,000, it is recommended that the Court exercise its discretion to order child support amounts above the obligation described for \$15,000 of combined gross monthly income. The court should determine the monthly support obligation for \$15,000 per month in combined gross monthly income. The Court should then compute the ratio of total combined income to \$180,000 by dividing total income by \$180,000. The ratio percentage should be multiplied by the child support obligation set at \$15,000 per month to arrive at an appropriate upward adjustment.

For example, in a situation where combined gross income is \$250,000 with two children of the marriage, divide \$250,000 by \$180,000 and multiply the percentage by \$2276, the minimum monthly support obligation for two children at \$15,000 combined monthly income (the maximum income set forth in the amended schedule). The computation would be as follows: $\$250,000 \div \$180,000 = 1.388$ $\times 2276 = \$3,161.11$ monthly child support obligation for a combined annual income of \$250,000.

In unique circumstances, the court in its discretion may analyze situations with combined gross monthly income in excess of \$180,000 on a case-by-case basis to arrive at an equitable child support order predicated on the original concept discussed in Administrative Order 87-2 that a child should receive the same proportion of parental support that he or she would have received had the parents remained in the same household.

3. Priority of Support Cases

Pre-existing child support orders constitute a required deduction to gross income (line 2 (a) on the worksheet). This policy shall continue so long as compliance with the previous order is demonstrated by an obligor. In situations where no child support order has been entered for child(ren) of a prior relationship, a deduction may be allowed by the court only if a subsequent child support order is entered for the child(ren) of the previous relationship. As such, the amount ordered in the later order may be treated as a deduction to the gross income of the obligor. The court should, therefore, consider each child support obligation in the order in which each case is considered by the court.

4. Split Custody Situations

These situations can take any form of different patterns:

Each party has one child and one person makes more income than the other. A suggested approach is as follows:

- a. Compute combined gross income of both parties;
- b. Find the support obligation from guideline schedule for two children based on combined gross monthly incomes;
- c. Deduct 50% of (b) from each person's gross income to determine adjusted gross income;
- d. Add adjusted gross income of both parties to determine total adjusted monthly income;
- e. Find the support obligation for one child based on combined adjusted monthly income found in (d);
- f. Multiply each party's percentage of (d) times (e).
- g. Deduct lower support obligation from higher support obligation. the higher earning person pays that amount.

(Please see attached Guideline worksheet #1 for an example of above).

This approach provides both children with support based on the total income available to the parties, and attempts to equalize the situation where one child lives with a parent with less income.

One parent has two or more children/other parent has one child.

- a. Same as above;
- b. Find the support obligation from guideline schedule for total number of children based on combined gross monthly incomes;
- c. Calculate pro rata share of total number of children in placement of each party;
- d. Deduct (b + c) from each person's monthly income to determine adjusted gross monthly incomes for each party;
- e. Add adjusted gross monthly income for each party to determine total adjusted gross income;
- f. Calculate each party's percentage of e;
- g. Using total adjusted monthly income found in (e), determine each party's support obligation for number of children with each party;
- h. Multiply (f) X (g);
- i. Subtract lower support obligation found in (h) from higher support obligation. The difference is owed by the person having the higher support obligation.

(See Attached Guideline worksheet #2 for an example of above).

5. Extended Visitation

No deduction from a basic child support obligation should be allowed by the court predicated on cumulative daily, weekly or monthly visitation by the obligor with his or her child(ren). If allowed, this procedure would engender costly and time-consuming litigation over relatively de minimus adjustments. However, in the discretion of the court, the court on a case-by-case basis may consider the following approach in situations where an obligor can satisfactorily demonstrate that a support obligation would be inequitable under RIGL Section 15-5-16.2 by reason of significant consecutive weeks or months of physical custody of a child(ren), such as custody during summer vacations;

- a) Determine an obligator's weekly and yearly support obligation by utilizing the 1997 schedule;
- b) Determine the number of consecutive weeks during the calendar year that an obligor will have physical custody of the child(ren);

- c) Multiply the weekly support obligation by the number of weeks that an obligor will have physical custody of the child(ren);
- d) Deduct this amount from the total annual support owed by a obligor;
- e) Divide the remaining sum by 52 weeks to obtain the pro-rated total amount to be paid by an obligor.

Please note that if the aforementioned approach is utilized, it becomes the burden of the obligee to move to modify the pro rated child support order when extended visitation does not occur as anticipated. Consequently, this approach should be used cautiously.

6. Joint/Shared Physical Custody

In light of the unique nature of an individual joint or shared physical custody arrangement, the court should exercise its discretion to determine an equitable child support obligation in accordance with the 1997 Monthly Basic Child Support Obligations Schedule and Child Support Guideline Worksheet.

In all other respects, not inconsistent herewith, the procedures set forth in Administrative Order 87-2 should be followed.
