1 Odyssey® File & Serve Overview

Topics Covered in this Chapter

◆ Release 3.5 New Features

The Odyssey File & Serve solution enables registered users to file documents with the court anytime, anywhere, 24 hours a day, seven days a week. This highly automated, scalable system provides customers the opportunity to transition from an inefficient paper-based process to a streamlined technology-based electronic filing (e-filing) system.

Release 3.5 New Features

This section lists the new features for Release 3.5.

i Note: Features vary based on your system configuration.

Advanced Search

The **Advanced Search** feature provides the ability to search by party name using a person or a business name. The **Advanced Search** feature includes the ability to filter a search on party name based on the location or the case type.

Figure 1.1 – Advanced Search

Auxiliary Filing

File & Serve now provides a way to upload a file type that is not converted into a viewable format within File & Serve. Users can now download and view the file externally from File & Serve using the RTF document format. **i Note:** The file will not be transmitted to Odyssey.

The **Auxiliary Filing** feature enables filers to upload an editable RTF version of a document to the court. For example, many courts require documents to be in PDF format; however, a judicial officer may want an editable version of the document sent to the court to be able to modify the document in the Proposed Orders. As a result, the filer would submit both the PDF and the RTF versions of the same document. The RTF version is used only if the judge is making changes to the filing.

i Note: The Auxiliary Filing feature is a configurable option that may not be enabled for your site.

Figure 1.2 – Document Attachment Section for Auxiliary Filings

Country Drop-down Lists

The **Country** drop-down lists are now added to the current data requirements of the address blocks in File & Serve to allow non-U.S. addresses. Cases sometimes involve parties with addresses outside of the United States, and File & Serve now supports the entry of a foreign address.

Figure 1.3 – Country Drop-down List

The **Country** drop-down lists are now added to the following areas:

- Registration (both the Firm and Individual Registration Wizards)
- Service Contacts (the Master Service List and Case Service)
- Parties Information Form

Support for Protected/Confidential Parties

Parties in the Case Management System (CMS) that are designated as **Protected** are not visible in File & Serve. Cases searched by party name that are a protected type will not be returned to the user. When loading a case, parties of a protected type are not displayed with the case information.

2 Before You Begin

Topics Covered in this Chapter

- ◆ Release 3.5 System Requirements
- ◆ Preparing your Case
- ◆ Filing Queue Status
- ◆ Filing Icons
- ◆ Page Navigation
- ◆ Error Messages

Before you begin, there are several items you should be aware of to assist you with the successful operation of your software.

i Note: Depending on your setup, all features may not be available. As a result, your screen may vary from what is shown in the document.

Release 3.5 System Requirements

This section describes the recommended system requirements to successfully use File & Serve.

- **Browser Requirements** – File & Serve supports current versions of the Windows operating system using Internet Explorer 7 or above or Firefox. If your browser does not meet these minimum requirements, please contact your network administrator.
- **Connection Requirements** – A high-speed Internet connection is recommended.
- **Minimum Screen Resolution** – For best results, a setting of 1024x768 or better is highly recommended. If necessary, users can set their monitors to 800x600 pixels, but doing so may compromise the graphic display.

i Note: This feature is a configurable option that may not be enabled on your site.

Preparing your Case

This section describes the preparations that needs to be done to successfully file and serve your case.

To e-file successfully, complete the following:

- Ensure all documents are completed and signed.
- Convert all documents you plan to e-file into PDF.
- Check the court rules for required forms, pleadings, and other filings.
- Compile documents into a working directory for easy access while uploading to e-file.

Once the preceding steps are completed, proceed to the home page to submit a filing transaction.

Filing Queue Status

The filing queue status lets you know where you are in the e-filing process. The key represents the status listed for your filing.

The following filing status key table describes the status associated with each filing type.

Status	Filing Type	Definition
Draft	EFO, EFS, SO	Filer entered full or partial filing data, but has not yet submitted filing.
Submitting	EFO, EFS, SO	Filer has submitted filing, but the document file format and payment information have not been verified on the back end.
Submitted	EFO, EFS, SO	Document file format and payment information have been verified and accepted, but the filing has not yet entered the Review Queue/Workflow Process.
Under Review	EFO, EFS	<p>A clerk reviewer has selected filing from a queue.</p> <p>Note: Once a filing reaches the Under Review status, it cannot return to the Submitted status. Selecting the End Review retains the Under Review status and returns the filing to the queue.</p>
Accepted	EFO, EFS	Reviewer has reviewed filing and accepted.
Rejected	EFO, EFS	Reviewer has reviewed filing and rejected.
Served	SO	Service only filings completed.
Cancelled	EFO, EFS, SO	Filer has cancelled the filing. Filer can only cancel draft and submitted filings.
Submission Failed	EFO, EFS	File format or billing error has occurred upon filer submitted filing. Failure specifics are available on the Details screen, and the filer is notified of specifics through email.

Note: Breadcrumb navigation requires information to be entered in a sequential order. You cannot move to the next breadcrumb until all of the required information on the current or previous page is completed.

The Auxiliary Filing feature enables filers to upload an editable RTF version of a document to the court. For example, many courts require documents to be in PDF format; however, a judicial officer may want an editable version of the document sent to the court to be able to modify the document in the Proposed Orders. As a result, the filer would submit both the PDF and the RTF versions of the same document. The RTF version is used only if the judge is making changes to the filing.
