1 Odyssey® File & Serve Overview

Topics Covered in this Chapter
♦ Release 3.5 New Features

The Odyssey File & Serve solution enables registered users to file documents with the court anytime, anywhere, 24 hours a day, seven days a week. This highly automated, scalable system provides customers the opportunity to transition from an inefficient paper-based process to a streamlined technology-based electronic filing (e-filing) system.

Release 3.5 New Features

This section lists the new features for Release 3.5.
Note: Features vary based on your system configuration.

Advanced Search

The Advanced Search feature provides the ability to search by party name using a person or a business name. The Advanced Search feature includes the ability to filter a search on party name based on the location or the case type.

![Advanced Search](image)

Figure 1.1 – Advanced Search

Auxiliary Filing

File & Serve now provides a way to upload a file type that is not converted into a viewable format within File & Serve. Users can now download and view the file externally from File & Serve using the RTF document format. Note: The file will not be transmitted to Odyssey.

The Auxiliary Filing feature enables filers to upload an editable RTF version of a document to the court. For example, many courts require documents to be in PDF format; however, a judicial officer may want an editable versions of the document sent to the court to be able to modify the document in the Proposed Orders. As a result, the filer would submit both the PDF and the RTF versions of the same document. The RTF version is used only if the judge is making changes to the filing. Note: The Auxiliary Filing feature is a configurable option that may not be enabled for your site.
Country Drop-down Lists

The Country drop-down lists are now added to the current data requirements of the address blocks in File & Serve to allow non-U.S. addresses. Cases sometimes involve parties with addresses outside of the United States, and File & Serve now supports the entry of a foreign address.

The Country drop-down lists are now added to the following areas:

- Registration (both the Firm and Individual Registration Wizards)
- Service Contacts (the Master Service List and Case Service)
- Parties Information Form

Support for Protected/Confidential Parties

Parties in the Case Management System (CMS) that are designated as Protected are not visible in File & Serve. Cases searched by party name that are a protected type will not be returned to the user. When loading a case, parties of a protected type are not displayed with the case information.

♦ Release 3.5 System Requirements
♦ Preparing your Case
♦ Filing Queue Status
♦ Filing Icons
♦ Page Navigation
♦ Error Messages

Before you begin, there are several items you should be aware of to assist you with the successful operation of your software.

\* Note: Depending on your setup, all features may not be available. As a result, your screen may vary from what is shown in the document.

Release 3.5 System Requirements

This section describes the recommended system requirements to successfully use File & Serve.

- **Browser Requirements** – File & Serve supports current versions of the Windows operating system using Internet Explorer 7 or above or Firefox. If your browser does not meet these minimum requirements, please contact your network administrator.
- **Connection Requirements** – A high-speed Internet connection is recommended.
- **Minimum Screen Resolution** – For best results, a setting of 1024x768 or better is highly recommended. If necessary, users can set their monitors to 800x600 pixels, but doing so may compromise the graphic display.

\* Note: This feature is a configurable option that may not be enabled on your site.

Preparing your Case

This section describes the preparations that needs to be done to successfully file and serve your case.

To e-file successfully, complete the following:

- Ensure all documents are completed and signed.
- Convert all documents you plan to e-file into PDF.
- Check the court rules for required forms, pleadings, and other filings.
- Compile documents into a working directory for easy access while uploading to e-file.

Once the preceding steps are completed, proceed to the home page to submit a filing transaction.
Filing Queue Status

The filing queue status lets you know where you are in the e-filing process. The key represents the status listed for your filing.

The following filing status key table describes the status associated with each filing type.

Page Navigation

The following sections describe how to navigate File & Serve and populate data fields throughout the filing process.

Navigate with Breadcrumbs

Breadcrumbs are a visual representation of the page you are currently on in the filing process. As you complete a page and move to the next page, the next page title illuminates to show you where you are in the process.

**Note:** Breadcrumb navigation requires information to be entered in a sequential order. You cannot move to the next breadcrumb until all of the required information on the current or previous page is completed.
Populate the Data Table

The Data Title is populated using information entered or selected when completing the forms throughout the filing process.

![Figure 2.2 – Data Table](image)

Enter User Information

The user information you enter or select populates the Data Table.

![Figure 2.3 – Data Fields](image)

Resume Filing

At any point in the filing process, File & Serve automatically saves a draft of the page on which you have completed all required fields and clicked Next. This feature allows you to stop work on a filing and resume the filing at a later time. To resume filing of a saved draft, click the WORKSPACE link at the top of the page, find your case on the FILINGS screen, and click the icon to resume your filing.
Error Messages

File & Serve displays several error messages to alert users when required information is not entered or invalid information is provided.

Enter Data in Required Fields

Required fields are those that contain an asterisk (*) next to the field name. If the information is not entered in the required fields, you will receive error messages when you try to advance to the next page.

Note: Required fields may vary in different sections.

Look for a field outlined in red in your form. When you place the cursor on the outline of the field, a required field message is displayed.
Receive Error Messages

When File & Serve displays an invalid error message, this means a required field must be populated to continue.

If the screen does not change when a navigation button is selected, look for a field outlined in red in your form. Place the cursor on the outline of the field, and an error message displays.
3 File & Serve Home Page

The File & Serve home page serves as the gateway to the File & Serve system. From this screen, you can register, log in, read your court’s Message of the Day, access the user guides, view training sessions, and get contact information for Technical Support.

Figure 3.1 – File & Serve Home Page

For example, many courts require documents to be in PDF format; however, a judicial officer may want an editable version of the document sent to the court to be able to modify the document in the Proposed Orders. As a result, the filer would submit both the PDF and the RTF versions of the same document. The RTF version is used only if the judge is making changes to the filing.
