

ETHICS ADVISORY PANEL
OPINION #93-75 REQUEST #416
Issued September 14, 1993

The inquiring attorney asks whether he/she may charge nonclients a fee for photocopies of documents produced on behalf of clients that are not protected by the confidentiality rule. The fee would be equivalent to those charged by a particular court for the same service. The documents are public records and the nonclients are potential adversaries of the inquiring attorney's clients.

The Panel perceives no violation of the Rules of Professional Conduct by the inquiring attorney's proposed conduct.
